- Including online safety in the PDLC, RSE and ICT curriculum, covering use both at school and home.
 - Reinforcing online safety messages whenever technology or the internet is in use.
 - Educating pupils in the effective use of the internet to research; including the skills of knowledge location, retrieval and evaluation.
 - Teaching pupils to be critically aware of the materials they read and show how to validate information before accepting its accuracy.
- The school will support pupils to read and understand the ICT Policy in a way which suits their age and ability by:
 - Displaying acceptable use posters in all rooms with internet access.
 - Informing pupils that network and internet use will be monitored for safety and security purposes and in accordance with legislation.
 - Rewarding positive use of technology by pupils.
 - Implementing appropriate peer education approaches.
 - Providing online safety education and training as part of the transition programme across the key stages and when moving between establishments.

6.1.1 Vulnerable Pupils

- Cams Hill School is aware that some pupils are considered to be more vulnerable online due to a range of factors. This may include, but is not limited to, children in care, children with Special Educational Needs and Disabilities (SEND) or mental health needs, children with English as an Additional Language (EAL) and children experiencing trauma or loss.
- Cams Hill School will ensure that differentiated and ability appropriate online safety education, access and support is provided to vulnerable pupils. New curriculum from 2020 informs and develops knowledge of current and ongoing E-Safety issues. This is to be reviewed bi-annually or when a new issue presents itself due to the changing nature of young people using technology for different reasons. See Annex 1 for what is covered in this document so far. The use of Netsupport DNA software allows for teachers to effectively monitor all screens and manage lessons appropriately and support vulnerable pupils if necessary.
- Cams Hill School will seek input from specialist staff as appropriate, including the SENDCO and Designated Teacher (Looked After Children).

6.2 Training and engagement with staff

The School will:

- Provide and discuss the Online Safety Policy with all members of staff as part of induction.
- Provide up-to-date and appropriate online safety training for all staff on a regular basis, with at least annual updates (this will take place during CPL training and regular briefing updates). This will cover the potential risks posed to pupils (Content, Contact and Conduct) as well as our professional practice expectations.
- Make staff aware that school systems are monitored and activity can be traced to individual users; staff will be reminded to behave professionally and in accordance with school policies when accessing school systems and devices.
- Make staff aware that their online conduct out of school, including personal use of social media, could have an impact on their professional role and reputation within school.

- Highlight useful educational resources and tools which staff should use, according to the age and ability of the pupils.
- Ensure all members of staff are aware of the procedures to follow regarding online safety concerns affecting pupils, colleagues or other members of the school community.

6.3 Awareness and engagement with parents and carers

- Cams Hill School recognises that parents and carers have an essential role to play in enabling children to become safe and responsible users of the internet and associated technologies.

 - Drawing their attention to the School's ICT Policy and expectations in newsletters, via the school's social media, prospectus and on our website.
 - Recommending that they read the online safety information as part of joining our school, for example, within our safeguarding webpage.
 - Recommending that they read the school ICT Policy and discuss its implications with their children.

7. Reducing Online Risks

- Cams Hill School recognises that the internet is a constantly changing environment with new apps, devices, websites and material emerging at a rapid pace. We will:
 - Regularly review the methods used to identify, assess and minimise online risks.
 - Examine emerging technologies for educational benefit and undertake appropriate risk assessments before use in school is permitted.
 - Ensure that appropriate filtering and monitoring is in place and take all reasonable precautions to ensure that users can only access appropriate material.
 - Due to the global and connected nature of the internet, it is not possible to guarantee that unsuitable material cannot be accessed via a school computer or device.
- All members of the school community are made aware of the school's expectations regarding safe and appropriate behaviour online and the importance of not posting any content, comments, images or videos which could cause harm, distress or offence to members of the community. This is clearly outlined in the school's Staff Acceptable Use of ICT Policy, ICT Policy and highlighted through a variety of education and training approaches.

 - Email
 - Games consoles and other games-based technologies

- Digital cameras, web cams and video cameras
- All school owned devices will be used in accordance with the school's Staff Acceptable Use of ICT Policy and ICT Policy with appropriate safety and security measures in place. Classroom and mobile devices are filtered via the Senso.cloud system, which is constantly updated and performs heuristic scanning to detect threats not yet catalogued by the system.
- In the classroom, all PCs are monitored using Senso.cloud, which constantly looks for inappropriate phrases, words and images within both student-created and online-accessed material. Scanning is also performed to detect combinations of words which may alert the school to a safeguarding issue. Alerts are sent to both the classroom teacher and ICT Network team if these are detected.
- Members of staff will always evaluate websites, tools and apps fully before use in the classroom or recommending for use at home.
- The school will use age appropriate search tools including Google Safe Search, following an informed risk assessment, to identify which tool best suits the needs of our community.

8.3.1 Decision Making

- Cams Hill School Governors and Senior Leadership Team have ensured that the school has age and ability appropriate filtering and monitoring in place, to limit children's exposure to online risks.
- The Governors and Senior Leadership Team are aware of the need to prevent 'over blocking', as that may unreasonably restrict what children can be taught, with regards to online activities and safeguarding.
- The school's decision regarding filtering and monitoring has been informed by a risk assessment, taking into account our school's specific needs and circumstances.
- Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the Senior Leadership Team; all changes to the filtering policy are logged and recorded.
- The Senior Leadership Team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.

- All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard pupils; effective classroom management and regular education about safe and responsible use is essential.

8.3.2 Filtering

- The school uses educational broadband connectivity through Southern Communications.
- The school uses Senso.cloud and additional DNS filtering at the firewall which blocks sites which can be categorised as: pornography, racial hatred, extremism, gaming and sites of an illegal nature. The school filtering system blocks all sites on the [Internet Watch Foundation](#) (IWF) list.
- The school works with Senso.cloud to ensure that our filtering policy is continually reviewed.

8.3.3 Dealing with Filtering breaches

 - Senso.cloud console on all student accessible PCs, logging all words typed, not just internet access.
 - Log files reviewed from Senso.cloud at the end of the day and alerts sent to technicians throughout the school day.
- The school has a clear procedure for responding to concerns identified via monitoring approaches; concerns and trends in monitoring patterns will be reported to the appropriate DSL, Head of ICT and Director of IT Services.
- Staff are trained to record video tutorials, meetings and classes (Zoom/Teams etc) undertaken during periods of home learning.
- All users will be informed that use of school systems can be monitored and that all monitoring will be in line with GDPR, human rights and privacy legislation.

 - Regularly checking files held on the school's network,
 - The appropriate use of user logins and passwords to access the school network. Specific user logins and passwords will be enforced for all.
 - All users are expected to log off or lock their screens/devices if systems are unattended.
 - Further information about technical environment safety and security can be found in the staff and pupil acceptable use of ICT policies.

8.5.1 Password policy

- All members of staff will have their own unique username and private passwords to access school systems; members of staff are responsible for keeping their password private.
- From Year 7 all pupils are provided with their own unique username and private passwords to access school systems; pupils are responsible for keeping their password private.
- We require all users to:
 - Use strong passwords for access into our system.
 - Change their passwords every 3 months.
 - Always keep their password private; users must not share it with others or leave it where others can find it.
 - Not to login as another user at any time.

8.6 Managing the Safety of the School Website

- The school will ensure that information posted on our website meets the requirements as identified by the Department for Education (DfE).
- The school will ensure that our website complies with guidelines for publications including: accessibility; data protection; respect for intellectual property rights; privacy policies and copyright.
- Staff or pupils' personal information will not be published on our website; the contact details on the website will be the school address, email and telephone number.
- The administrator account for the school website will be secured with an appropriately strong password.
- The school will post appropriate information about safeguarding, including online safety, on the school website for members of the community.

 - The forwarding of any chain messages/emails is not permitted. Spam or junk mail will be blocked and reported to the email provider.
 - Any electronic communication which contains sensitive or personal information will only be sent using secure and encrypted email.
 - School email addresses and other official contact details will not be used for setting up personal social media accounts.
- Members of the school community will immediately tell the DSL or Director of IT Services if they receive offensive communication, and this will be recorded in the school safeguarding files/records.
- Excessive social email use can interfere with teaching and learning and will be restricted; school email accounts are automatically monitored and the contents will be searched if concerns are raised.
- The school will have a dedicated email for reporting wellbeing and pastoral issues. This inbox will be managed by designated and trained staff.

8.8.1 Staff

- The use of personal email addresses by staff for any official school business is not permitted.
 - All members of staff are provided with a specific school email address, to use for all official communication.
- Members of staff are encouraged to have an appropriate work life balance when responding to email, especially if communication is taking place between staff and pupils and parents.

8.8.2 Pupils

- Pupils will use school provided email accounts for educational purposes.
- Pupils will sign an AUP and will receive education regarding safe and appropriate email etiquette before access is permitted.

8.9 Management of Learning Platforms

- Cams Hill School uses Moodle as its official learning platform.
- Leaders and staff will regularly monitor the usage of the Learning Platform (LP) in all areas, in particular, message and communication tools and publishing facilities.
- Only current members of staff, pupils and parents will have access to the LP. When staff and/or pupils' leave the school, their account or rights to specific school areas will be disabled or transferred to their new establishment.

- Any concerns about content on the LP will be recorded and dealt with in the following ways:
 - The user will be asked to remove any material deemed to be inappropriate or offensive.
 - If the user does not comply, the material will be removed by the site administrator.
 - Access to the LP for the user may be suspended.
 - The user will need to discuss the issues with a member of leadership before reinstatement.
 - A pupil's parent/carer may be informed.
 - If the content is considered to be illegal, then the school will respond in line with existing child protection procedures.
- Pupils may require editorial approval from a member of staff. This may be given to the pupil to fulfil a specific aim and may have a limited time frame.
- A visitor may be invited onto the LP by a member of the leadership team; in this instance, there may be an agreed focus or a limited time slot.

8.10 Management of Applications which Record Children's Progress

- The school uses SIMS to track pupils' progress and share appropriate information with parents and carers.
- The Headteacher is ultimately responsible for the security of any data or images held of children. As such, they will ensure that tracking systems are appropriately risk assessed prior to use, and that they are used in accordance with GDPR and data protection legislation
- To safeguard data:
 - Only school issued devices will be used for apps that record and store children's personal details, attainment or photographs. Personal staff mobile phones or devices will not be used to access or upload content.

 - All users will be advised regarding safety measures, such as using strong passwords and logging out of systems.
 - Parents and carers will be informed of the expectations regarding safe and appropriate use, prior to being given access; for example, not sharing passwords or images.

9. Remote Learning (Including Live Lessons)

9.1 Live Online Teaching

- Live online teaching is an important part of this overall package for pupils of all ages. Interaction with a teacher is an important part of the learning process and, whilst online contact cannot replicate face to face contact, live sessions are particularly helpful as they allow contemporaneous communication, with pupils able to respond to staff questions – and vice versa.
- Live contact is an important part of pastoral support and provides pupils with a direct interface with a familiar trusted figure at a time of significant change and uncertainty.
- Live classes also give pupils the opportunity to interact with peers and maintain important social connections during a period when they could otherwise become isolated. However, it should be remembered that live online teaching remains 'one tool in the box' and, for the reasons set out above, it should be balanced alongside learning opportunities in a range of other formats.

- Members of the Cams Hill School community sign into Zoom via Single Sign-On using their Cams Hill email address and password. This ensures that teachers know who is in their online classroom at all times, keeping pupils safe from online intruders.
- In order to safeguard both pupils and staff, live online sessions must be conducted following the protocols set out below.

9.2 Protocols for staff in relation to guided home learning:

- Only use school approved platforms; do not use social media in communicating with pupils.
- Reinforce online safety messages regularly in your teaching.
- Bear in mind the current circumstances and how they are affecting children and families when setting expectations of pupils.
- Consider online safety when sharing resources – vet websites and videos/apps/software carefully and bear in mind that the home environment will not have the same content filtering systems as at school. If introducing new apps and resources, ensure these meet GDPR requirements. Contact your Line Manager/Director of IT Services for further guidance.
- If concerned about online safety/resources, check with IT support.
- Ensure that passwords and secure information – such as log-ins for SIMS/EDULINK/ClassCharts – are kept confidential.
- Adhere to copyright and GDPR guidelines.
- Continue to look out for signs that a child may be at risk – which may differ from typical triggers in a school environment. Report any concerns to the DSL without delay in the usual way.
- Do not provide pupils or parents with personal contact details – email, home or mobile numbers, details of web-based identities etc.
- Do not arrange to meet pupils or ask them to deliver work to your home.
- Remain professional and objective in all email and other forms of correspondence.

9.3 Staff responsibilities to live online teaching:

- Teachers must use the waiting room function on Zoom and should admit pupils only if they recognise them as members of Cams Hill School community.
- Keep a record/log of live online lessons – date and time, attendance, what was covered, any incidents. Any serious incidents should be reported in the usual manner depending on the nature of the issue.
- Maintain professional conduct during live streaming – dress appropriately, consider your surroundings (background, other household members who may come into view etc) and blur if necessary, and remember that your microphone may be on.
- Maintain the same boundaries and insist on the same standard of behaviour as in a school setting. Make specific protocols clear at the outset, e.g. muting of microphones at appropriate times, use of the chat function etc.
- 1:1 teaching and guidance are an important part of school provision for some pupils and this should be maintained as far as possible during guided home learning.

9.4 Reporting an issue for staff:

- Any child protection or safeguarding concern must be reported to the DSL without delay.
- Concerns about the safety of procedures, behaviours or use of technology should be referred to the DSL and the Director of IT Services.
- Routine queries about the use of apps or online materials should be addressed to your Line Manager or IT Support depending on the nature of the issue.

- UK Safer Internet Centre's Professionals Online Safety Helpline is a good source of external advice.

9.5 Protocols for pupils in relation to guided home learning:
