

CONGRATULATIONS

Congratulations on your GCSE results. No doubt there is a mix of relief, excitement, and possibly shock as your school life comes to an end. What does not end, however, is our willingness to help you succeed in your next steps.

Are your grades at or above what is required for your next steps? Then check the enrolment information you have been sent to ensure your place is secure at your chosen establishment.

Are your grades lower than expected and you think they may not be sufficient for your next steps? Then your first action should be to contact the college/provider to discuss your grades directly with them in relation to the course you applied for. It is possible in these unique times, that they may accept your grades or adjust your offer to suit. Please contact them as soon as possible to discuss this. They will be busy and the sooner you make contact the more likely a positive result will be achieved.

Are you still unsure as to what your next steps after school should be? Then you have a number of options to gain advice. Listed below are the details of the national careers service helpline as well as the contact details for local providers. Most importantly we at Cams Hill School are here to help. Please email spurslow@camshill.com with a contact number and I will call to offer any help I can between now and September.

CONTACTS

National Careers Service: An impartial service for pupils and carers/parents to advise on next steps. They can be contacted on **0800 100900**
