Distinction
Progression:
Bristol School of Acting to study
Technical Theatre Arts

Tyler Holgate
Fareham College

Course: T Level
Digital Production,
Design &
Development

Grade: Distinction

Progression:
Degree
Apprenticeship

This T Level helped me to understand a lot about the industry.

The placements and projects really helped me to learn what is needed in the industry and how to be successful. They were key to helping me learn and as a result secure my degree apprenticeship.

Throughout the course, we had a lot of guest speakers representing different fields such as travel agencies, cruise ship companies, yachts, cabin crew, and even theme parks. They are very interesting and gave real insight into jobs in the industry that we could pursue. I was always most passionate about Cabin Crew and the Aviation industry.

The course and lecturers really helped me to get the job working for Swissport at Southampton Airport. We had a lot of support to build our CVs and interview practice. I am really proud of myself for getting the job, it's a great step forward in my career and has lots of opportunities to progress.

Ruslana Shkruat
Eastleigh College

Course: Level 3
Travel & Tourism

Grade: Distinction

Progression:
Swissport
Southampton Airport

Getting to College

Car

Train

Bike

Bus

All our colleges are easily accessible by car or public transport.

It may be helpful to trial your travel plan before the start of the term to help you prepare.
